

Boseph Bordan Yes, it actually is. I don't necessarily agree with "free love", but I think having a mentally ill genetic abomination Jew like Seymour Ass define sexual norms on tape for you is far more damaging to society and spirit than just doing it as your instincts tell you. Jews control porn, pretty much all the directors are kikes, and the psychological impact pornographic movies have on people is quite dangerous, not to mention disgusting.

Images of bizarre and irrational Jewish "sexual" practices go straight to the pleasure side of your brain by associating the increase in dopamine with the images on screen, this dopamine rush beings to control you until you become addicted. It's why so many men and women are sodomizing one another, despite the fact that 1) normal intercourse is far more pleasurable for both and 2) the anus is, by biological design, the least sexy part of the human body, it defies all logic for people to toss salad and plug assholes, it only becomes common after it is repeated over and over in even the most mainstream of porno filth.

Jews use pornography to try and infect normal people with the mental insanity of queers, pedophiles, zoophiles, etc. Like everything they get their hands on, the octopus weaponizes visual media to spread diseases that weaken their enemies (in the case of the Jew, the enemy is every non-Jew in the world).

Pedro Sousa I dont disagree with your views I just find hedonist sex as bad. In fact is more destrutive because it takes that that should be pure sensual and build on love and turns into something material and dirty has easy has shewing a bubble gum.
